Super 16 Auto Eject

- 16A, heavy duty pin and sleeve contacts provide reliable connection over years of insertion/eject cycles
- 3 pin, 240V configuration
- IEC 60309 standard European connector provided
- Smooth sculpted cover, no sharp edges
- Eject actuation voltage 12V
- Upon sensing engine start, plug ejects from receptacle and away from vehicle path; eliminating dangerous severing of cord
- Auto Eject energizing is delayed until detector pin senses plug is inserted, eliminating terminal arcing
- After eject, magnetized weatherproof cover snaps into position over inlet
- Weatherproof back enclosure with watertight cable fittings protects mechanism from road contamination
