

CamelBak H.A.W.G. Water and Gear Pack.

The 1,220.5 cubic inch capacity pack features a 100 oz. water pack. The OMEGA™ Reservoir makes filling and cleaning the water pack easy, and the closed cell insulation and neoprene tube cover keep water cool for hours. An Independent Suspension Harness ensures comfort even when traveling over intense terrain. Also features ASIPS antennae ports for antennae of all sizes, multiple MOLLE/PAL attachment points, an Air Director™ ventilated back panel for keeping cool, and an exterior pocket for storing small gear such as hand-held radios or tools. Constructed of abrasion-resistant 500D Cordura.
